I push all my projects regularly.

EDUCATION

- **Web Development 2022**
Zero To Mastery Academy - Online
- **BAC Economique et Social 2007**
Lycee des Mascareignes - Moka

PROJECTS

■ PORTFOLIO WEBSITE

Fully responsive React application,
Applies all the fundamental concept of this library.
The objective was to put all my learnings into practice while taking care of the aesthetics. It's been deployed on Netlify via Github.

Stack & libraries used:
ReactJs, React-Router-Dom, Axios, Framer-Motion, Material-UI

Link: <https://www.chrisweb.app>

■ SHOPPING WEBSITE

Fully responsive React application,
It's an online shopping store with a SignUp/login which allow a login with google accounts. It also has a cart management system From where you can add or remove selected items which will appear On the checkout page.

Stack & libraries used:
ReactJs with Context hook, React-Router-Dom, Styled-Components, Firestore (data base & login system)

Link is available on <https://www.chrisweb.app>

■ TO DO LIST APPLICATION

It's a fully operational application which stores each task in a database until it is done and delete by the user.
Infinite new custom list is possible by creating a new page dynamically. It was deployed on Heroku via Git commands.

Stack & libraries used:
NodeJs, Express, MongoDB, Mongoose

Link is available on <https://www.chrisweb.app/mycode>

■ Stack & Programming Languages:
